Subject ORD Science Communication Bi-Annual Meeting

The ORD Science Communication Bi-annual Meeting will be held at the Atlantic Ecology Division in Narragansett, Rhode Island September 26 - September 30, 2005. The bulk of the meeting will be held on Tuesday, Wednesday, and Thursday with optional activities (TBD) available on Monday and Friday.

Dan Coberly, RTP Science Communication Officer, will be the project/activity lead for the meeting and will be working directly with Jonathan Garber, Division Director and staff to firm up the meeting objectives, agenda, training options, scientist engagement, media/press relations, community outreach/activities, feature story writing and photo opportunities, and ORD EPA-internal guests. He is working to create an agenda for learning/training, networking, interactions with scientists and AED management, among other innovations.

Donna Dews, our communication assistant, is securing hotel rooms and will work on meeting logistics-related matters.

Please mark your calendars, and feel free to communicate with Donna Dews and Dan Coberly on any matter related to the meeting, or to offer suggestions on the agenda, and to RSVP.
