Effective October 2006, some core services as interlibrary loans, cataloging, online literature searches, quick and extensive reference/research requests (including business research, journal articles, etc.) were transferred for handling by the Andrew W. Briedenbach Environmental Research Center (AWBERC) located in Cincinnati, OH (a/k/a CINN Library). These services will no longer be handled by the Region 4 Library staff, but rather the CINN Library. All requests for interlibrary loans, cataloging, online literature searches, quick and extensive reference/research should be submitted directly to the Cincinnati Library via phone, facsimile, e-mail (preferred), or through their intranet page:
